METAL SERIES

A metallic flair that exudes confidence and style.

For an ultra-modern touch these metallic foil laminates are renowned for their lustre and radiance. Meta Decor Laminates is made in the same fashion as standard HPLs, they are hassle-free and dust-repellent solutions.

Advantages

- It guarantees an appealing look, suitable for luxurious hotel environments and high-end homes.
- The combination of abrasion and stain resistance minimizes the need for frequent maintenance, saving time and resources
- Ideal for vertical application

Application Areas

- Wall Panel • Reception • Doors
- Partitions ideal for vertical applications only.

 Natural Metallic Look

 Highly Decorative

CHALK & MARKER

Advantages

- Cost-effective chalk boards
- High-contrast surface for clear visibility
- Smooth, consistent surface for seamless writing
- Easy erase: quick cleaning for both dry & wet marks

Application Areas

- Ideal for vertical usage • Conference Room
- Auditoriums • College • Institutions

CARE & MAINTENANCE

CLEANING

- When cleaning the surface, dampen a cloth or use a melamine sponge with mild soap or detergent if needed.
- Stubborn stains such as coffee or tea can be eliminated with a mild household cleaner and a soft bristle brush.
- For persistent stains, create a paste with baking soda and water, then gently scrub in a single direction for 10 to 20 strokes. Avoid excessive scrubbing to prevent damage to glossy finishes.
- Avoid highly acidic or alkaline products that may stain the surface.
- Use a clean cloth when using solvents to prevent marks on the surface.
- Avoid using furniture polishes, low-pH paint thinners, and wax-based detergents on Foil HPLs, as they can leave a sticky residue and harm the surface.
- Caution: Prolonged exposure to bleach will cause discoloration of the laminate surface.

HARSH CHEMICALS

- Chemicals like oven, toilet, or drain cleaners will etch and discolor the decorative surface. Avoid using cleaners such as:
- | | | |
|----------------------------------|--|--|
| • Toilet bowl and drain cleaners | • Hydrogen peroxide or chlorine bleach | • Oven cleaners- Metal cleaning products |
| • Coffee pot cleaners | • Hard water stain removers | • Fruit juice and tub/tile cleaners |

ABRASIVES

Abrasive materials, scouring powders, or cleaners can permanently scratch and dull the laminate surface, making it more prone to staining.

SHARP OBJECTS

Avoid using knives or sharp tools directly on the decorative surface. It is advisable to use a chopping board or counter saver.

HOT OBJECTS

- Do not place hot items directly from the oven or stove top on the laminate surface. While Virgo Croma HPL is heat-resistant, exposure to temperatures above 160°C is not recommended.
- Protect the surface from heat-producing appliances like irons, toasters, and curling irons using a trivet or insulated pad. Extended exposure to high temperatures may damage the surface, causing blisters, dulling, or laminate separation.

IMPACT

Avoid dropping heavy objects or hammering directly on the HPL surface. Despite its impact resistance, high-pressure decorative laminate may chip or crack if mishandled.

- Virgo Croma HPL surfaces do not necessitate any specific upkeep.
- Conventional household cleaning products or disinfectants are suitable.
- For regular cleaning, utilize a melamine foam sponge.
- To remove tough stains like paint marks, consider using non-harsh aromatic solvents (e.g., acetone).
- Refer to the brochure or catalog for cleaning instructions specific to the product.
- Care & Cleaning Recommendations

CERTIFICATIONS

ABIOTIC

Safe and Healthy Living alongside VIRGO Products this revolutionary development retards the growth of common bacteria, making Virgo products ideal for laboratories, kindergartens, offices, and domestic environments.

CE

VIRGO products have been awarded CE certification confirming their compliance with essential European health, safety, and environmental protection legislation by many Product Directives. This marking assures the government officials that the products can be legally placed in the market.

FSC

VIRGO's products are available as FSC® Certified, ensuring that the wood used in the manufacturing process is considered the "gold standard" and meets the Forest Stewardship Council's responsible management standards. The FSC certification is a benchmark for environmentally conscious and economically viable wood products. All products manufactured by VIRGO for this collection are available with FSC® Certified products (Certificate No. A000517) on request.

EN 438-2

VIRGO products are tested under BS EN 438 – 2 to ensure dimensional stability and performance standards for resistance to boiling water, moisture, impact, scratches, and stains.

LIMITED WARRANTY

Virgo provides a warranty to the original purchaser that Virgo Croma Laminates will be free from defects when used as intended and under normal conditions within acceptable manufacturing standards. In the event of a claim due to a defective laminate, the buyer's exclusive recourse is limited to the replacement of the laminate by Virgo.

PLEASE TAKE NOTE :

- The application images featured in the catalogue are for illustrative purposes only. To accurately assess color and texture assessment, refer to the actual product sample.
- The samples showcased are indicative of the available color patterns and finishes and are provided for reference purpose only.
